This world
can be
Eden
for
all of us

The story of Eden and the vision of paradise on earth is shared by Muslims, Jews and Christians. The description is found in the Thora, the Bible and the Qor'an in identical wording. This vision shows us that if we ignore the teachings of love and sharing, we have to live outside the garden of Eden.

We are guests in the same house.
This planet has enough for all of us. All Humans are free and equal. We have the authority and the responsibility to decide. We can choose to share or to deny. We are not in competition.
We are one.
